I have the same Nissan 1400 conversion on my SJ and fuel consumption was my top concern. To improve you need to tackle it from all sides, run the correct tyres, tune timing down, make sure exhaust manifold fits engine properly and has no leaks - the airflow through the engine is pure. then turn your attention to the carb, make sure it isn't leaking air (mine was) and check its tuned right.

Replacement Carb for Nissan 1400 - 4x4community.co.za
