Intellectual giftedness is an intellectual ability significantly higher than average. It is a characteristic of
children, variously defined, that motivates differences in school programming. It is thought to persist as a trait
into adult life, with various consequences studied in longitudinal studies of giftedness over the last century.

The Library of Congress Classification (LCC) is a system of library classification developed by the Library of Congress. It is used by most research and academic libraries in the U.S. and several other countries. LCC should not be confused with LCCN, the system of Library of Congress Control Numbers assigned to all books (and authors), which also defines URLs of their online catalog entries ...

Riemann Zeta Function. The Riemann zeta function is an extremely important special function of mathematics and physics that arises in definite integration and is intimately related with very deep results surrounding the prime number theorem. While many of the properties of this function have been investigated, there remain important fundamental conjectures (most notably the Riemann hypothesis ...
