

comparative and economic systems pdf

Comparative economic systems is the subfield of economics dealing with the comparative study of different systems of economic organization, such as capitalism, socialism, feudalism and the mixed economy. It is widely held to have been founded by the economist Calvin Bryce Hoover. Comparative economics therefore consisted mainly of comparative economic systems analysis before 1989 but switched ...

Comparative economic systems - Wikipedia

An economic system (also economic order) is a system of production, resource allocation and distribution of goods and services within a society or a given geographic area. It includes the combination of the various institutions, agencies, entities, decision-making processes and patterns of consumption that comprise the economic structure of a given community.
