

contributions in analytic and pdf

Contribution Analysis is an approach for assessing causal questions and inferring causality in real-life program evaluations. It offers a step-by-step approach designed to help managers, researchers, and policymakers arrive at conclusions about the contribution their program has made (or is currently making) to particular outcomes.

Contribution Analysis | Better Evaluation

Contribution analysis an theory-based evaluation In its original formulation. d. 3, contribution analysis was designed to deal with the attribution problem when working with existing routine monitoring data. However, Mayne later broadened the approach
