Last mile is a term used in supply chain management and transportation planning to describe the movement of people and goods from a transportation hub to a final destination in the home.

Last mile (transportation) - Wikipedia

- Problem solving is vital in all aspects of business from people problems to technical problems and from short-term to long-term problems. And problem-solving involves two completely different, possibly conflicting thought processes: creativity and decision making. The first part, the creativity, is to generate options, possible solutions, and then the second part, the decision making is to ...
