The word "curriculum" began as a Latin word which means "a race" or "the course of a race" (which in turn derives from the verb currere meaning "to run/to proceed"). The first known use in an educational context is in the Professio Regia, a work by University of Paris professor Petrus Ramus published posthumously in 1576. The term subsequently appears in University of Leiden records in 1582.

Digital marketing is going to change drastically in 2019. And sadly, you aren't going to like a lot of the changes. And no, I don't mean change from a competition standpoint. You already know that each year marketing gets more expensive and more competitive. That's just a given. Just look at the graph above: that's [!]
