The Icelandic financial crisis was a major economic and political event in Iceland that involved the default of all three of the country's major privately owned commercial banks in late 2008, following their difficulties in refinancing their short-term debt and a run on deposits in the Netherlands and the United Kingdom. Relative to the size of its economy, Iceland's systemic banking collapse ...

History. The term "financial inclusion" has gained importance since the early 2000s, a result of identifying financial exclusion and it is a direct correlation to poverty according to the World Bank. The United Nations defines the goals of financial inclusion as follows: . Access at a reasonable cost for all households to a full range of financial services, including savings or deposit ...
