Genetically modified food controversies are disputes over the use of foods and other goods derived from genetically modified crops instead of conventional crops, and other uses of genetic engineering in food production. The disputes involve consumers, farmers, biotechnology companies, governmental regulators, non-governmental organizations, and scientists.

Genetically modified food controversies - Wikipedia

Regulation of tobacco by the U.S. Food and Drug Administration began in 2009 with the passage of the Family Smoking Prevention and Tobacco Control Act by the United States Congress. With this statute, the Food and Drug Administration (FDA) was given the ability to regulate tobacco products.
