

handheld calculator programs for pdf

During online conversations I've mentioned that, before personal computers became available " before the Apple II (1977) and others that followed it " I programmed handheld calculators and published the results in magazine articles. Some readers have asked me to describe those days, which I must confess now seem like prehistory.

Programming Handheld Calculators - arachnoid.com

calculator and dragging the window to the location of your choice. Use the numbers on the keyboard and/or point and click with the mouse to enter your computations into the on-screen calculator. When you are finished, close the calculator by clicking the . button in the upper right corner of the calculator.
