A global city, also called world city or sometimes alpha city or world center, is a city which is a primary node in the global economic network. The concept comes from geography and urban studies, and the idea that globalization is created, facilitated, and enacted in strategic geographic locales according to a hierarchy of importance to the operation of the global system of finance and trade.

Introduction. The recent intensification of involvement in the Horn of Africa<sup>â€™</sup>s coastal zone by the Gulf Arab States<sup>1</sup> has led to the surge in development activities at ports in the region. These have coincided with various actions taken by Horn of Africa states to affect the regional distribution of power to their advantage.
