Meso-zooplankton food-webs in intermittent upwelling systems: An overlooked link in a productive ocean. Eastern boundary currents are among the most productive marine ecosystems on the planet and support a significant proportion of global fisheries, yet there are unanswered questions about the role of non-crustacean zooplankton in transferring production through upwelling food webs.

I am considering using pdf.js (an open source tool that allows embedding of a pdf in a webpage). There isn't any documentation on how to use it. I assume what I do is make an html page with the script referenced in the header, and then in the body, I put some sort of function call with an array of the file name and location.
