Backdraft or Smoke Explosion. While smoke explosion and backdraft are often confused, there are fairly straightforward differences between these two extreme fire behavior phenomena.

Â» smoke explosion | Compartment Fire Behavior - CFBT-US

Life is a characteristic that distinguishes physical entities that have biological processes, such as signaling and self-sustaining processes, from those that do not, either because such functions have ceased (they have died), or because they never had such functions and are classified as inanimate. Various forms of life exist, such as plants, animals, fungi, protists, archaea, and bacteria.
